ABOUT ME

I am a front-end developer with 6 months of experience working with React, hands on NextJS and RESTful API projects. I can provide quality FE code based on required design. I am eager to learn more and make a significant contribution to the success of the company.

EDUCATION

UNIVERSITY OF TECHNOLOGY AND EDUCATION

Bachelor of Engineering IT | 2019 - 2023 | GPA: 3.33

WORK EXPERIENCE

CHEMLINK

FRONTEND DEVELOPER | MARCH 2023 - MAY 2023

- Production: chemlink.com.vn
- Developed a compelling website introducing a prominent chemical company, employing the NextJS framework.
- The website boasts an array of features, including responsiveness, a parallax background, a Swiper for dynamic content display, optimized SEO capabilities, scroll-based animations, a versatile navbar with subitems, dynamic routing, and support for multiple languages.
- Continuously updated and maintained the website to ensure seamless operation.

FPT SOFTWARE

FRONTEND REACTJS INTERN | JULY 2022 - SEPTEMBER 2022

- Collaborated with a team to successfully develop an Ecommerce website with features comparable to Shopee, utilizing React and Redux for robust UI/UX and efficient state management.
- Integrated APIs provided by the Back-end team to ensure seamless functionality and third party APIs like VNPAY, Messenger/Zalo widgets and Google login.
- Maintained active involvement in daily team meetings and provided weekly progress reports to mentor.

GOLDENRISE SECURITY

FRONTEND DEVELOPER | APRIL 2022 - JUNE 2022

- Production: goldenrise.vn
- Developed a professional website to showcase a security company, utilizing the ReactJS framework.
- Employed best practices to create reusable components, ensuring efficient development and maintenance
- The website features a responsive design to ensure seamless viewing on different devices.

—— PROJECTS

CHATALA - SOCIAL NETWORK

FULL-STACK DEVELOPER | OCTOBER 2022 - MAY 2023

- Source: github.com/HungTran2101/Chatala-KLTN

- Developed a feature-rich chat website with real-time events, leveraged the MERN stack as the foundation, incorporating Socket.IO for real-time communication.

- Utilized signed upload to Cloudinary and Redux for app state management

- Collaborated with a team of two members to successfully complete this project, which served as the graduation thesis.

PRACTICE CV WEBSITE

FRONTEND DEVELOPER | APRIL 2022 - JUNE 2022

- Production: trannhathung-practise-cv.vercel.app

- Created a hands-on ReactJS practice website by leveraging a prebuilt CV website template and some sample information.

- Implemented a responsive design to ensure optimal viewing experience across various devices.
